

## FASHION NOTES.

(Continued from Fourth Page.)

fashionably trim in fit. The collar is folded brown velvet set thick with rosettes of velvet and chiffon, and it shows in the back as well as in front. With this garment should be worn a yellow felt hat with wide straight brim weighted with rosettes to match those of the collar and with the crown hidden under black plumes.

Though quite different design, the dress pictured here is quite as correct as that just described, and is, also, its equal for novelty. Made of violet colored suiting, its skirt is gathered at the waist and falls from there in double folds that widen toward the hem. The jacket bodice has yoke and vest of violet accented pleated silk, and the cloth edges of the bodice and front are spangled trimming, a strap of the same joining the fronts. The sleeves are of silk with wide bands of shirring at the shoulders and cuffs, and the plain cloth standing collar and wrists have double ruffs of silk.

## OFF.

"Tell me," said a lady to an old soldier, "when you were in the army were you cool in time of danger?" "Cool?" answered the truthful veteran. "I fairly shivered."—Boston Transcript.

Old Lady (to motorman on trolley car)—Ain't you afraid of the electricity, Mr. Motorman? Motorman—No, ma'am, I ain't got no fear of it. I ain't a conductor.—Philadelphia Record.

Anxious Mother—Has Mr. Bashful proposed yet? Daughter—Not exactly; but last evening, when I was holding little Dick in my lap, Mr. Bashful went to the piano and sang: "Would I."

An Important Point.—The Deacon's Wife—I hope you have been careful about the new minister's qualifications? The Deacon—Yes. We made him define exactly what he means by "a few words."—Brooklyn Life.

Parson (on his way to a new "call")—"My boys, what are you digging for?" The boys—"A woodchuck, mister." Parson (demonstratively)—You don't expect to get him on Sunday? The boys—Git him—git him! We gotter. Th' new minister's goin' ter take dinner with us ter-day.—Judge.

"Yes," said the inventor, "I think I see millions in it, if I can only get the thing to work." "No doubt," said the doubting friend. "What have you in mind now?" "A scheme for confining cyclones in bicycle tires. See? There is your ideal motor at merely the cost of capture."—Memphis Scimitar.

Mrs. Ida Buxton Cole, prominent among suffrage speakers, says: "We read in the Bible that after the Israelites were all worn out with wrangling and dissensions God gave them a woman—Deborah—to judge them. She ruled over them for over forty years, and we read that 'then they had a rest.'"

Canon Whitley, the veteran vicar of Bedlington, preached a sermon in which he showed the foolishness of staking money. Two pities were discussing the sermon afterward, when one of them was heard to say he felt sure "the vicar must have betted a lot himself in his time, or he wouldn't have known as much about it."—Household Words.

The minister had been in the little Kentucky town but a short time, and when he was called on to preach a funeral sermon he thought it best to pick up a few facts about the deceased. "I trust our brother gone before was a truly religious man?" he said to the surviving brother. "You bet he was," was the earnest answer. "Why, brother, he never tuk out his gun to lay for one of the Simmonses without just prayin' three hours."—Cincinnati Enquirer.

## An Editor Sentenced.

Berlin, Oct. 6.—Herr Ilge, the editor of the Leipzig Tageblatt, has been sentenced to five months' imprisonment for publishing an article in his paper commenting unfavorably upon the emperor's speech to the officers of the guards on the occasion of the Sedan day banquet in Berlin in September.

## GOOD ROADS WORK.

Members of the Highway Commission and Subordinants Busy.  
Hartford, Oct. 6. Mr. MacDonald, the professional member of the state highway commission, spent some time yesterday morning looking over the work that is being done on the highways of Newington. Mr. Hoyt, the secretary of the commission, is preparing an object lesson in good road construction for the benefit of the selectmen and other town officials. Mr. Sternberg, one of the clerks in the office of the commission, is corresponding with the towns that are tardy in action to improve their highways in accordance with the new law. The commission is anxious to know just how many towns will apply for the appropriation, so that the allotment of money can be made.

## ROUGH ON RATS

CLEARS OUT

Bed Bugs, Flies,

Cockroaches,

ANTS, BEETLES, WATERBUGS, INSECTS, EATS, MICE, &amp;c. &amp;c. &amp;c.

LEAURELLE OIL BALM.

For Eczema, Itch, and Sunburn; prevents itching in wrinkles, aches, and dryness of the skin. &amp;c. &amp;c. &amp;c. &amp;c.

WELLS' HAIR BALM.

It grows, gradually restores the hair to original color, cures dandruff, itching, and dryness of the scalp. &amp;c. &amp;c. &amp;c. &amp;c.

## PERHAPS THIS MAY HELP YOU.

"My food does me no good," you say. Then it does you harm. There is no halting place between these extremes. Digested food alone gives health and strength. Undigested food sours, or ferments, in the stomach and becomes a poison to the whole body. It causes headache, heart palpitation, liver and kidney trouble, distress after eating, pains in the chest and sides, and the tired, languid, heavy feeling we hear so much about. When the digestion goes wrong, every function of the body goes wrong. Yes, and the mind, too. Men fail in business and die poor for no other reason than this—they are weakened, dulled and stupefied by dyspepsia. The lives of a host of women are blighted in the same way. You may be one of this miserable multitude. The writer of these lines was one of your number a short time ago. I tried dozens of things to get cured; just as you have done, no doubt. The thing which at last succeeded with me may succeed with you. It is a discovery of those wise and good people—the Shakers, of Mr. Lohannon, N. Y.—called the Shaker Digestive Cordial. It is not a purgative, which at best gives only transient relief. It is in itself a digested food and also a corrector of the digestive function. You can eat and digest your food while taking this cordial. It helps you at once and soon makes the stomach vigorous and healthy. It is not like any other so-called dyspepsia cures. It is prepared by the Shakers principally from herbs cultivated by them. They do not ask you to spend a dollar for a bottle while they are in the dark as to its virtues. They take the risk themselves. Almost any druggist will sell you a trial bottle for ten cents, so you can see whether it is what they say—and adapted to your case. And isn't even the mere chance of a cure worth that much?

## 190 MILES IN 175 MINUTES.

The time of the record-breaking train on the Lackawanna Road.

Corning, Oct. 5.—The record-breaking train on the Lackawanna road, which left East Buffalo at 8:47 a. m., arrived in this city, 130 miles distant, at 10:49 this morning. From here to Big Flats, a distance of 6 1/2 miles, the run was made in exactly 4 minutes, or at the rate of 90 1/2 miles per hour. The distance from Corning to Elmira, 16 miles, was made in 11 minutes. The 190 miles from Buffalo to Binghamton were covered in 175 minutes.

The train reached Hoboken at 4:19 p. m., making the run of 497 miles, from Buffalo to Hoboken, in 452 minutes. At the D. & L. and W. office in Hoboken it was said that the only occasion for the hurry was that Mr. Walker and his family wanted to get to New York as soon as possible. The train came into Hoboken over the Morris and Essex division of the railroad. That distance of sixty-eight miles was covered in 66 minutes.

## THE COMING CONVENTION

Of the State Teachers' Association in This City.

The program for the exercises and speeches of the convention of the Connecticut State Teachers' association has been nearly completed and will be issued within a few days. The speeches and addresses are of special interest.

The schedule for October 18, the day of the meeting of the convention, is as follows:

At 9:30 in the morning all the teachers will meet at United church in general session. The principal speaker of the convention will be President De Gama of Swarthmore college. His address will be delivered on this occasion. A quartet selected from the Yale Glee club will give several selections.

At 11 o'clock the various sectional meetings will begin, with a general discussion of the paper. An exhibition will be held at the Boardman Manual Training school from 11 until 12 in the morning. The exhibition will be of general work and will be similar to the exhibition held last year.

The primary section will meet at 11:35 a. m. in the First Methodist church. The first speaker in the primary division will be Miss Grady of South Manchester on the subject of "Science."

H. M. Loomis of the State Normal school will also speak. Mrs. R. M. Lathrop of Bridgeport Training school will give an address on the "Study of Child Nature." Miss Gertrude Phillips of Boardman Manual Training school will speak of "Drawing in Primary Grades." The principal address in this division will be by Alexander Everett Frye of Boston. He is an eminent authority on educational subjects. His subject is "Geography." He has recently published several books of new methods which have attracted great attention.

The grammar school section meet in the First Methodist church at 2 p. m. The principal address will be given by C. N. Kendall, the new superintendent of schools.

The high school section will meet at 2 p. m. in some hall of the city. Charles E. Sargent, an instructor in Hillhouse high school, will deliver a treatise containing a discussion of the fundamental principles underlying the determination of secondary school courses. The paper will be followed by ten-minute criticisms by Prof. Keop of Norwich. Mr. Peck of New Britain, Principal Sweeney of Hartford high school and Mr. Mather of Boardman high school.

The program is an entirely new departure. It will be unusually large and printed in book form. About 7,000 copies are to be printed and circulated widely throughout the state. The program will contain educational addresses by well known teachers and thinkers, and these will be discussed at the meetings.

Professor Cook's Serious Accident.  
Professor Albert S. Cook, the head of the English department at Yale, broke one of his legs Friday night through a fall from his bicycle. The fracture has been reduced.

He will be confined to his house for several weeks. Professor Cook's classes will be divided among the other professors of the English department during his absence.

## WALLINGFORD.

There are but few outside of those in the business who have any idea of the immensity of the spoon business that is carried on in this town, especially so at R. Wallace & Sons', where at the present time there are fully 1,300 gross of spoons turned out every day in the week, which means 15,000 dozen a day, or 4,800,000 dozen a year, counting 300 working days, which is nearly one spoon for every resident in the United States. Wallingford has always been known as Spoonville and it is deserving the name, for with the other manufacturers of spoons, Hall & Elton & Co., the Simpson Nickel company, Maltby, Stevens & Curtis company and G. L. Mix & Co. there is no doubt but that more spoons are made every day in Wallingford than in all the rest of the entire country combined. The quality includes all grades, from the cheapest to the finest quality of sterling silver.

James Bettis, colored, driver for J. A. Cook, was thrown from his seat on the wagon to the ground Saturday by a collision with the electric car and received a cut over the eye and was severely bruised. Bettis was driving along beside the car track on East Center street and turned his horses to cross the track ahead of the car, which, he says, he did not see. Motorman Brogren tried to stop the car and avoid a collision, but could not.

A German farmer from East Wallingford late Saturday afternoon hitched his horse in front of J. C. Wynn's on Hall avenue. A barling dog frightened the horse and he started to break away, but the hitch line stood the pressure and the animal started in a circle about the post around the sidewalk into the street. On one of the circuits the wagon collided with the building, breaking the shafts and seat. The horse stopped when it was tired out.

Invitations will be sent out to-day for the marriage of Addison H. Talcott and Miss Battle May Lane, daughter of Oscar B. Lane of Hall avenue. The wedding will occur on Wednesday, October 15, at four o'clock p. m., at St. Paul's church.

Two Russian Jews, a young man and girl, from Meriden, with names that it was almost impossible to spell, and more so to pronounce, came into the town clerk's office Saturday and having procured a license were married by Judge John A. Martin and departed again for Meriden happy. The bride was a comely looking young lass and the groom was only twenty-one years of age.

Voters should remember that the polls close to-day at 4 o'clock p. m. Republicans, get to the polls and vote early, and see that your friends do likewise.

The town meeting will be called to order at 2 o'clock in town hall. Vote the straight republican ticket, and make no mistake.

The annual inspection of Company K will occur next Friday evening in the armory.

Sam Hubbard is now on the Wesleyan college football team.

Miss Jennie Beers of Wellesley college is the guest of Miss Bessie Hull.

Work has begun on the Orchard street sewer.

Rev. Henry Stone has decided to the Advent society 18x160 feet on Whittelsey avenue.

W. L. Fogarty and bride and David Kelly and bride arrived home Saturday from their bridal tours.

There is no reason for any one being without work here if they want to work, for there is employment for all who are willing to take advantage of the opportunity.

Mr. and Mrs. Charles G. Phelps are home from their wedding trip.

## IN WALLINGFORD.

Special Meeting of New Haven County Pomona Grange.

There will be a special meeting of New Haven County Pomona Grange No. 5 in Grange hall, Wallingford, Thursday, October 10.

This is probably the last opportunity the patrons of New Haven county will have of receiving the fifth degree and thus be placed in line of promotion to the seventh degree, which will be conferred at Worcester, Mass., in November, during the assembly of the Priests of Denmark at the twenty-ninth annual session of the national grange.

The fifth degree meeting in Wallingford will be a harvest meeting in charge of Pomona and Ceres, and will be of special interest.

## H. S. BROOKS, Secretary.

RESPONDS TO THE DEMANDS.  
The increasing demands which have been made on Mr. Bunnell for mailings at the Grand on Tuesdays and Fridays and which he began the past week, have decided him to give them for the remainder of the season on those days. He would give them on Mondays and Thursdays, but those are the days on which the companies arrive in the city, so that they cannot give a mailings on those days. The mailings days will be Tuesday, Wednesday, Friday and Saturday. Prices, 10, 20 and 25 cents, which will not be raised during the season.

## CLIMATE ALONE

will not cure Consumption. It will help; but the disease must have systematic treatment. The germs which produce it must be destroyed. The havoc wrought in the lungs must be repaired; their injured surfaces healed. Change of climate will not do this. It will simply increase the supply of oxygen, and leave nature to struggle on for years with the disease.

## Ozomulsion

TRADE MARK.  
does better than this. It cures quickly and permanently. It is made of Ozone, Cod Liver Oil and Guaiacal. The Ozone supplies the needed oxygen, and with the Guaiacal destroys the poisonous germs which cause the disease. The Cod Liver Oil is for the purpose of nutrition only. It doesn't kill germs. It doesn't make appetite—in fact, it makes it. It is simply a flesh-maker, a tissue-builder. That's the truth—my physician will tell you so.

OZOMULSION is for  
Coughs, Colds, Consumption, Bronchitis, Asthma, and other effects of Pneumonia and La Grippe, all Pulmonary Affections; Scrofula, General Debility, Loss of Flesh, Anemia, and all Wasting Diseases.

All Druggists or T. A. Shocum Co.,

Wallingford.

Wallingford.

## THIRD ANNIVERSARY

Of the Dessauer-Troostwyk School of Music—A Rare Musical Treat Promised.  
The Dessauer-Troostwyk School of Music will celebrate its third anniversary with a reception to be given by some of its pupils at Stelbert hall, next Wednesday at 4:15 p. m.

The program will be an elaborate high class one. Some of the most talented pupils will take part. The Dessauer-Troostwyk trio will also render one selection. The numbers will be given as follows:

Sonata in F major.....Beethoven  
For Violin and Piano.  
Silverquell.....Bendel  
Piano Solo.

Gondoliera.....Hans Sitt  
Violin Solo.

A. Villanella.....del Aquila  
L. Liebesell.....Bina Troostwyk  
Soprano Solo.

Arioso and Air de Ballet.....Alard  
Violin Solo.

Fantasia.....Wollenhaupt  
Piano Solo.

Concertino.....Rene Ortman  
Violin Solo.

Tackeltanz.....Meyerbeer  
The Dessauer-Troostwyk Trio.  
Complimentary tickets may be had on application at Stelbert's music store or at the Dessauer-Troostwyk School of Music.

## A BABY

CONTRADICTS THE DOCTORS.

All Are Happy, Glad, and Well.

(SPECIAL TO OUR LADY READERS.)

The theories of physicians in regard to female complaints suffer a "Waterloo" very frequently, when sensible and thinking women take matters into their own hands.

Women are sometimes compelled to act for themselves, because of the suffering forced upon them by incompetent doctors, who are baffled by very simple complaints, because they are not the right sex to comprehend them.

Lydia E. Pinkham, when she gave to the world her Vegetable Compound, lifted women from the darkness into light. She placed within their reach a guaranty, not only of health, but of delicacy and self-respect.

The following letter is a little story where a "dear little boy" was the "Waterloo."

"I have taken three bottles of your Vegetable Compound, one package of Sanative Wash, one box of Liver Pills; and now I have a dear little babe four weeks old, and I am well. I have to thank you for this."

"I have spent \$200.00 for doctors' bills without a cure. For my cure I only spent \$5.00."

"I was once a victim of female troubles in their worst form. I have suffered untold agonies every month; had to stay in bed, and have poitices applied, and then could not stand the pain."

"My physician told me if I became pregnant I would die. I had bladder trouble, itching, backache, catarrh of the stomach, hysteria, and heart trouble, fainting spells and leucorrhoea. Can you wonder that I sing the praises of a medicine that has cured me of all these ills?" Mrs. Geo. C. KIRCHNER, 351 Snediker Ave., Brooklyn, N.Y.

applied, and then could not stand the pain.

## "It STICKS like a limpet on a rock"

A man broke his jaw in Hoboken on an auto had to be had spoken if you're meaning to do.

But Le Page's Glue, And used everything you see it broken.

said a cabinet-maker, who was asked why he used Le Page's Glue.

Mechanics and artisans know its qualities, but a housekeeper has to learn from experience when mended things "STAY PUT,"—or perhaps she buys a cheaper glue (2 cents) and has a sadder experience.

**LEPAGE'S LIQUID GLUE**  
READY TO USE  
No heating needed. No acid to injure delicate fancy-work. BOTTLES TO BE HAD EVERYWHERE.

Chicago's English Diamond Brand.
